

January 29, 2016

We invite you to a workshop on How to Expand to Turkish Electrotechnical Industry

The accompanying program of the International fair of electrical engineering, electronics, automation, communications, lighting and security Amper 2016 organized by Czech-Turkish Chamber of Commerce workshop on **How to expand to Electrotechnica Turkish Industry** . The workshop will be held on **Thursday, March 17, 2016 14 to 16 pm** in the conference hall P5, Brno Exhibition Centre.

At our workshop, among other things, you learn:

- How to be successful on the Turkish market
- What are the specifics of the Turkish business etiquette
- How to negotiate with Turkish business partners
- Legal aspects of doing business in Turkey (legal environment, establishment of the company, types of partnership, start-up)
