Istanbul Metro,Rail Forum & Exhibition with the participation of Czech companies

In Istanbul on 9th-10th April 2015 saw the first annual conference entitled MetroRail Istanbul Forum & Exhibition. Organizer B2B Matchmaking Society of Turkey, with the support and under the auspices of state bodies and institutions - the Ministry of Transport, Maritime Affairs and Communications, Istanbul Ulaşım A.Ş., EGO, or Metro İzmir - brought attention to the 300 delegates from Turkey and abroad who have interested to participate in infrastructure projects not only in Istanbul.

The conference program was divided into six basic blocks. In the first block called planning, operation and integration of different transport systems were the presentation of Czech companies UniControls and SYSGO sro Czech Republic also represented the company CZ LOKO, as, who participated as an exhibitor and last but not least, LICHNA TRADE CZ, sro as a delegate .

The event helped the Czech companies to establish initial contacts, both private and with government entities and stakeholders in the field of underground construction not only in Istanbul but also in other regions of Turkey. Construction of the metro in Istanbul's grand project - in the years 2014-2019 will reach the planned construction of underground length of 420 km, after 2019 even 779 km. Investment in Istanbul, according to estimates by the end of 2020 will reach 10 billion.
